Kimi,

Ex. 5 AC/DP

If you're OK with this approach I will make the changes as mentioned above, and save that into another document. This new document can then have ORC's review on what, if anything, should be changed/added/removed. It would primarily have what we have covered recently – with your comments solicited keeping the new approach in mind.

Ex. 5 AC/DP

Douglas would like to provide an update and recommendation to OPRA management on Friday – we just wanted to run the approach past you for comments. Thanks!
